

M Numan Qamar

Junior Web/App Developer

✉ numanqamar16@gmail.com ☎ 0306-9761224 🌐 <https://github.com/numanqamar16/> 📍 Lahore, Punjab

Enthusiastic and self-motivated web/app developer with 2+ years of experience. Eager to join Software House and bring my skills in web and app development to every project that will be received in the future. Passionate about staying updated with the latest technologies and trends in the ever-evolving field of web/app development. Excited to collaborate with talented teams and contribute to innovative projects that push boundaries and drive success.

Projects/Experience

- **Landing Page Front-End designs using HTML-CSS-React Js-Bootstrap** 2022-23
 - Developed several landing pages in **virtual internship**.(at “**OASIS INFO BYTES**” & “**E SOLUTIONS**”)
 - The website's pages were visually appealing and fully responsive across all devices.
- **E-Commerce website with integration of Whatsapp (React JS)** 2023
 - A website that enables users (especially designed for lay shopkeepers) to handle orders online via Whatsapp.
 - The website deployed to local market with freemium business model.
 - My website gained significant attention, leading to interviews with various media channels.
- **Grocery Android App with AI (Chat GPT API Integration) in Flutter** 2023
 - The Grocery App, utilizing a Firebase database, manages the process of purchasing products and handling related operations with AdMob.
 - The App included 12 different screens included Sign in/Sign up authentication.
 - The app is optimized to seamlessly switch between light and dark themes.
- **Miscellaneous Academic Group Projects** 2021-2022-2023
 - Student Management System(JavaFx)
 - Library Management System (.Net & MS SQL)
 - Snake Game (DSA)
 - Software Design Document for Library Management System
 - Problem Solving Programming (C language)
